to Seal Doom of Revolt

TEXICAN REBELS TOTTER

MEXICO CITY, March 11. (A)—The government tonight holds the opinion that the backbone of the revolution has been broken, and in this most of the best informed foreign observers here concur. The government looks for the fall of the rebel cities of Torreon and Durango, possibly without serious battle, within forty-eight hours. It sees no chance of a rebel victory and believes that within a week the situation will be merely on of wiping out scattered groups in the States of Chihuahua, Sonora and possibly

on file with the Treasury Department and the government will redeem none of them.

There used to be a popular saying in Mexico, "A revolution always wins." The last two attempts, however, failed and the authorities here believe the present movement is destined to go the same way. Another old asying in Mexico is: "No revolution can win if it is opposed by the 'United States." One of the most important factors in the present situation has been the willingness of, the United States government to supply munitions to the Federals and to forbid sales to the rebels.

rebels.

Government leaders tonight pointed out and expressed much pleasure in the fact that Catholic leaders here have not identified themselves in any way with the rev-

provides for the deportation of aliens convicted.

"The Jones law." Bohner commented, "is driving out the weak sisters and leaving only the hardbolled offenders. The latter, I believe, will give us more or less trouble and probably violence, but we are prepared to meet it."

Bohner also said that as the result of much intensive work, he is equipped with the names and telephone numbers of not less than 3000 bootleggers in San Francisco and that his agents are launching a campaign to drive them out of business. Undercover men, he said, will be stationed in hotels and

Bay City Bonds Selling Slowly

SAN FRANCISCO, March 11. (P) SAN FRANCISCO: March 11. (P) Sluggishness of the bond market in absorbing \$41,000,000 in city of San Francisco securities with which the municipality intended to buy the plant and distributing system of the Spring Valley Water Company was discussed by the Board of Supervisors today. Supervisor Franck Havenner, chairman of the finance committee, told his colleagues on the board that the demand for securities was slower now than it had been at the time the Spring Valley issue was ordered sold over the counter in the Treasurer's office.

While the city is attempting to market the water issue the Spring Valley management has retained title and control of the property.

REPORT OF TAX **BOARD OFFERED**

Governor Suggests Mildly Keeping Commission

Utilities Assessment System Adjustment Urged

Chance for People to Study Proposals Asked

(Continued from First Page) personal income tax merely that 'the issue should be raised for discussion' in order that the Legislature may determine when this proposition may properly be submitted to the peo-

ple.

*Reduce the taxes on insurance companies in the amount of about \$800,000 for biennium; and adjust the rates and exemptions of the inheritance tax laws, with a resulting reduction of approximately \$3,000,000 per biennium; thus, in some respects, establishing California as the most liberal of all States imposing inheritance taxes.

(4.) "Abolish the present personal property taxes on automobiles increasing the present \$3 license fee sufficiently to reimburse the counties for the loss of revenue involved; and still further equalize the taxation of motor vehicles.

the taxation of motor vehicles.

(5.) "Abandon the personal property taxes of corporations and thus do away with the offset of such personal property taxes against the franchise tax of these corporations; finally establish a permanent appointive tax commission of three to administer the State taxes in place of the systing State board. to administer the place of the exist of equalization.

NEED NEW SYSTEM

"I believe that anyone who studies the commission's report will agree that the time is coming when we must devise some other tax system to take the place of the one created by 'Constitutional amendment No. 1." the Governor continued. 'The thing for the Legislature to determine is whether the change should be attempted now or whether it should be preceded by a more thorough public discussion and a more pronounced public demand.

"After all, the real purpose of situation of the commission of the

tax on persons, based on their prosperity and solility to pay."

The Governor stated he believed there is need for a revision of public utility tax rates although the commission did not recommend it. He said that if the Legislature decides not to recommend a major change in the tax system at the present time, he would suggest that there should be at least a readjustment has been made during the past eight years.

TRATES NOT EQUALIZED

A study made by the Board of Equalization has shown that the tax burden on the properties of certain public utilities "is distinctly too high, just as on those of soine others."

The Governor stated he believed there on 790 kilocycles.

The court denied a motion of the Radio Commission fob a rehearing of the Commission of the Radio Commission of the Radio Commission of the Radio Commission of the court relating to the same time the court research the same time the court rejected an application by the commission to have the court's manual that the same time the court rejected an application by the commission to have the court's manual that the same time the court research the same time the court rejected an application by the commission to have the court's manual that the same time the court rejected an application by the commission to have the court's manual that the same time the court rejected an application by the commission to have the court's manual the same time the court rejected an application by the commission to have the court's manual that the same time the court rejected an application by the commission to have the court rejected an application by the commission to the same time the court rejected an application by the commission to the same time the court rejected an application by the commission to the commission to the same time the court rejected to the commission to the same time the court rejected to

RATES NOT EQUALIZED

A study made by the Board of Equalization has shown that the tax burden on the properties of certain public utilities "is distinctly too high, just as on those of some others it is clearly too low."

The Governor suggested a constitutional amendment to provide that a certain limited portion of the State's surplus shall be allocated to aid certain counties "which have been suffering an undue tax burden owing to the antinued operation of Constitutional Amendment No. 1, and the consequent removal from the local tax base of the operative property of public utilities."

This allocation, he said, should be on the basis of the relative proportion which the value of the counties' operative property bears to property which is nonoperative.

The Tax Commission should be continued with sugmented personnel and powers, the Governor said, to get into direct touch with public sentiment on the subject of taxation in all portions of the State, and to bring into one picture more thoroughly than has yet been done the whole subject of inter-related State and local taxation and expenditures.

and short wave channels for calling planes or ground stations.

The aircraft radio allocation plan, except where it applies to the military services, contemplates voice radio entirely, and was worked out to the satisfaction of all the technicians by Commander T. A. M. Craven, U.S.N., engineering adviser of the commission.

SCOPE OF OPERATIONS
The operators propose to erect their own stations at key points for two-way communication with planes in flight, and services not afforded by the government, such as plane dispatching, will be furnished by

transmitting signals, also will erect stations of their own. Different operators using the stations will build them on a partnership basis, operating them without profit.

For example, on the route from San Francisco to Los Angeles the Pacific Air Transport, Western Air Express, Maddux Lines and Standard will have jointly owned stations both at the two main terminals and at Bakersfield and Fresno.

At Chicago the Boeing and Western Air Express interests seek to erect a station, although the other lines probably will join in the partneyship. One station is proposed for each field, this to be operated in the interests of all flying, whether done by members of the co-operative radio organization or nonmembers. Because safety of life is the paramount factor, it is expected that the Federal Radio Commission will waive its rigid public utility requirement except in that it will demand that the stations always make their service available to all flyers and flying concerns.

Experts prove-Wringing makes the

Clothes LEANER For homes without electricity, the Maying is enailable with in-built gasoline motor. HE squeezing action of the Maytag Roller

Water Remover forces out the last bit of dirt that would dim the clothes, the last particle of soap that, if allowed to dry in, would rot the labric. The final drying should be on the line, preferably in the sunlight. Airing and sunning makes the clothes sweet, clean and sanitary.

The Maytag Roller Water Remover was developed at a cost of over a quarter of a million dollars. It is an outstanding improvement in soap and water removal methods. Combined with the fast, gentle but thorough washing action of the Maytag cast-aluminum tub and gyrafoam action, it gives you a cleaner washing with less time and with less effort.

WAR PAYMENT BANK FAVORED

Reparations Committee Now Agreed on Plan

Prospective Profit Claimed for Creditor Nations

Question of Capital Donor Not Yet Reached

JURISTS FAVOR ROOT FORMULA

Facilitates American Entry in World Court

Sir Cecil Hurst's Revision of Draft Approved

International Conference to Review Protocol

PARIS, March 11. (F)—Members of the second Dawes committee, after a morning's discussion of the plan for an international bank to handle German reparations payments, were unanimous in considering the trustee function of the institution as settled, so proceeded to talk about other features.

The amount of capital of the new bank was the subject of a lengthy exchange of views. Opinions generally tended toward the idea of limiting capital to minimum requirements, though there was a suggestion that larger capital might facilitate working of the institution in maneing deliveries in kind.

NONCOMPETITIVE AFFAIR

The relations of the new bank with central banks or banks of issue in different countries were touched on and the necessity of avoiding any competition with those institutions was emphasized. It virtually was agreed that the charter of the bank should be so drawn as to make it impossible for it to encreach upon the fields of state banks.

Nothing was decided as to the ste for the international bank except that it will not be in Geneva. The experts desire to avoid anything that would look like connecting the proposed international francial institution with the League of Nations of the bank.

THE CHIEF QUESTION

The question of who shall furnish the initial capital necessary to start such a bank going and who is to get the profits from its operations remains to be decided. There is general agreement that reparations remains to be decided. There is general agreement that reparations remains to be decided. There is general agreement that reparations remains to be decided. There is general agreement that reparations remains to be decided. Beck in Talk to Sons of Revolution Declares it Inimical to Democracy

WASHINGTON, March 11. (Exclusive)—Censorship of radio or motion pictures "before utterance" is as damaging to the American form of democracy as censorship of the press itself would be, James M. Beck, member of the House of Representatives from Permaylvania, and president of Washington Chapter, Sons of the Revolution, told the latter body on the occasion of the fortieth anniversary of its founding here tonight.

Mr. Beck reviewed the history of the world struggle for freedom of thought since the days "en Gutenberg invented the printing press. "Liberty generally is achieved by great convulsive upheavals," he said, while its impairment is generally subterranean and insidious. No thief in the night moves so silently as oppression. WASHINGTON, March 11. (Ex-

in the night moves so silently as oppression.

"So far as the freedom of thought is concerned, what possible difference can it make whether thought is conveyed by the press or by sound waves, or pictures? In each case what is shackled is the human mind and if the ideals of liberty mean anything one form of tryanny is as indefensible as another."

No medium of expression has the right to subvert morals or advocate treason, Mr. Beck contended, but he held that existing law is ample to protect the public in these fields.

"The power to punish for the abuse of the right of free expression, as of any right, presents a very different question from that previous restraint which forbids anyone to exercise the right without having acquired a license from the government," he said. "Without the free transmission of thought popular government would be im-

REIS JIMPANTS & JIMSHIRTS

Here is genuine style in men's underwearsmart, clean-cut, vigorous style....the kind of style that distinguishes a sportsman from a "sport" and a gentleman from a "gent".

Reis Jimpants and Jimshirts are direct de-cendants of the college athlete's track suit ...with certain modern improvements.

In the "privacy" of his club locker room the wearer of Reis Jimpants and Jimshirts can shed his outer togs with complacency ...even with pride. Fact is, when a man be-comes an addict to his Jimpants and Jim-shirts it requires some self restraint to keep from appearing in them on the fairway.

They come in white, in plain pastel colors, and in some very ritry color effects for lade who like 'em that way. Fabrics are broad' cloth, madras, genuine Burton's Irish Poplin, and fancy shirtings.

Dividend Case Up in High Court

WASHINGTON, March 11. (P)—
The Supreme Court consensed today to decide whether holders of
Wabash Railway preferred stock
"A" are entitled to receive dividends
equal to earnings which had been
used for betterments, equipment of
working capital, before holders of
convertible preferred stock "B" and
common stock can receive dividends.
Declaring the question of great
importance to the holders of railroad, industrial and other stock.
Charles Evans Hughes urged the
highest tribunal to pass on the question to prevent a widespread disturbance of property rights.

French Vessel Taken in Tow

HONOLULU, March 11. (P)-The HONOLULU, March 11. (P)—The Prench steamer Marechal Foch, atterd drifting helplessly six days with a crew of fourteen and six passengers, has been taken in tow by the Japanese freighter Victoria Maru. The Victoria Maru radioed today that the Marechal Foch, which broke her rudder while en route from Papeete to San Francisco with passengers and copra, had been given a line 700 miles northwest of Honolulu. With the French vessel in tow, the Victoria Maru expects to reach this port Wednesday.

Armory Voted for Long Beach

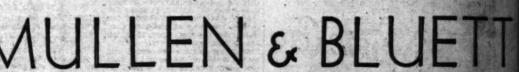

SACRAMENTO, March 11. (P)-The Assembly today adopted an amendment to the administration's amendment to the administration's budget bill calling for an appropri-ation of \$150,000 for a National Guard armory at Long Beach. The vote was \$1 to 19.

The amendment was introduced of Assemblyman Keaton of Long Beach.

FOR INIMITABLE STYLING

Trends and tastes in gentlemen's smart headwear are first indicated by Dobbs designers. Thus it is that you will notice rather a conspicuous reaction toward the smaller, more compact proportions in Spring Dobbs displays . Brims are narrow ... extremely so. Crowns are higher and tend to slightly conical effects. Colorings have a rich, new elegance . You're certain to find a becoming Dobbs among the broad Mullen and Bluett showings

AND POWER

.....Visit the Los Angeles Municipal Water and Power Relief Map on permanent display on the Main Floor of the City Hall. A comprehensive view of the City's great Water and Power

WATER IS THE LIFE BLOOD of Los Angeles. And the great City-owned Aqueduct system operated by the Department of Water and Power might truthfully be described as the jugular vein of this municipality.

Day and night, year in and year out this man-made waterway is bringing to Los Angeles an unfailing stream of sparkling snow water from the Owens Valley-High Sierras region. Upon this Aqueduct water supply depends the life, the growth and the prosperity of the Metropolis of the Pacific.

With 1,300,000 persons dependent upon this Aqueduct for their daily water there must be no interruption in its operation-no deficiency in its distant sources of supply.

Safe passage of water across a vast expans of mountain and desert country must be assured.
Therefore, every foot of the 250-mile-long Aqueduct is inspected daily by a picked organization of mounted patrolmen.

There must be no guess work about the quantity of water available to feed the Aqueduct. Therefore, Department engineers go forth each day from isolated mountain stations to scale a hundred storm swept passes and accurately to hundred storm swept passes and accurately to measure and chart the "snow crop" and stress levels on towering slopes of the Sierra Nevadas

Tireless vigilance and sound engineering methods bring to Los Angeles the precious necessity of water.

Opening Today SPRING EXHIBIT of Society Brand Clothes

Some there are who think that styles in men's clothes never change! Others, that changes are so slight no one will know if they wear last season's suit or topcoat.

Not so, however, those who place the proper value upon correctness in dress. They know that last season's styles are as easily identified as last year's car.

This truth has never been more strikingly demonstrated than in Society Brand Clothes for Spring.

Master designers have created new lines...craftsmen of the loom have developed new fabrics...color experts have originated new shades.

And, because of the dominant position of the makers, these innovations are exclusive with Society Brand.

Our showing of Society Brand Clothes is now complete. Finer, we believe, than ever before. Finer as to fabrics... tailoring...smartness of cut...and style.

It is, therefore, with genuine pleasure that we invite you to the opening of our Spring Exhibit ... today.

Society Brand Clothes - \$45 to \$95

Blimp Forced Land on Bay After Mishap After Mishap After Mishap to Land on Bay

NORFOLK (Va.) March 11. (P)—

After perching on a tree near Buckroe ranch and getting free, the
army dirigible TC-10 today made a
forced descent on Chesapeake Bay
near Back River. The crew of four,
with Lieut-Col. J. W. S. Wuest, executive officer at Langley Field, in
command, was rescued dry and unhurt. The crippied ship had lost
much of its valuable helium gas.
It will be towed to Langley Field, its
station, by launches.

Those aboard the blimp, in addition to Col. Wuest, were Lieut.
Leslie Skinner and Sergts. Harry
Balacks and J. J. Horan of the
Nineteenth Airship Company.

The craft was on a test flight to
determine if it had been damaged
in last week's storm.

New York Votes Mosquito Fund

NEW YORK, March 11. (Exclu-NEW YORK March 11. (Exclusive)—An appropriation of \$100,000 to fight mosquitoes in New York
City's five boroughs was made at
today's meeting of the Board of Estimate.

The fund will be spent for the
digging of trenches and the purchase of oil, which spreads over the
surface of the water and kills whole
nurseries of baby mosquitoes.

Corpse in Hearse Foils Gangsters

PHILADELPHIA, March 11. (27)
A cream-colored hearse containing
the body of a 4-month-old child
was found abandoned in South
Philadelphia today. It was stolen
last night from the entrance to the
receiving ward of the Methodist
Hospital.

USEDCARS

Cadillac-La Salle Dominance of Fine Car Field Creates Unique Opportunity to Buy **Exceptionally Good Cars at Remarkably** Low Prices-Now Is Best Bargain Period

the place Where is the best place to buy a good Used Car?

From a dealer whose used cars are of the very highest quality; who has a wide variety from which to choose; whose cars are in the best of condition and strictly as represented; and whose reputation for honesty, square dealing and reliability is unquestioned.

Cadillac-La Salle dealers offer this special advantage. Their Used Cars are remarkably fresh, as well as varied, because of the very nature of their new car business, the commanding position they occupy in the fine car field, and the character of their chentele

Most of their Used Cars have seen but little service. Many are only a year or two old. They look good. They are good. They are ready to deliver thousands of miles of excellent service.

the time When is the best time to buy a good

Now is the best time to buy from any Cadillac-La Salle dealer.

There are sound reasons why you can pick up better bargains today than at any other time of the year.

During the past few weeks, it has been possible to spend much time in re-conditioning. All Used Cars carried by Cadillac-La Salle dealers are therefore in exceptionally In addition, extraordinary low prices now prevail, because with the natural acceleration of new car sales from now on, it is desirable for the dealer to accelerate the sales of present Used Car stocks.

extra values A further reason why Used Cars, of any make, sold by Cadillac-La Salle dealers offer the highest obtainable values is because there is never an excess in price that must be absorbed by the purchaser of a trade-in.

It is well known that there is a temptation in quarters to make over-allowances for trade-ins to force sales of new cars.

The sale of new Cadillacs and La Salles is not made in that fashion. Thanks to their acknowledged position, no artificial stimulants are necessary.

ease of purchase It is a simple and an easy matter to purchase any Used Car from any Cadillac-La Salle dealer. The General Motors Deferred Payment Plan is a banking service for your convenience. You enjoy the car now and pay for it out of income.

Wise buyers of Used Cars will naturally seize these opportunities. The time is now. The place is wherever Cadillac-La Salle dealers sell Used Cars.

FANNIE WARD

THE modern common sense way—reach for a Lucky instead of a fattening sweet. Everyone is doing it-men keep healthy and fit, women retain a trim figure. Lucky Strike, the finest tobaccos, skilfully blended, then toasted to develop a flavor which is a delightful alternative for that craving for fattening

Toasting frees Lucky Strike from impurities. 20,679 physicians recognize this when they say Luckies are less irritating than other cigarettes. That's why folks say: "It's good to smoke Luckies."

Authorities attribute the enormous Note: increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that during 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This confirms in no uncertain terms the public's confidence in the superiority of Lucky Strike.

Newly Purchased Rifle

Spensored by the National Art Institute, an exhibition of the paintings of Louis Kronberg, well-known American artist, was placed on display yesterday in the Ainsile Galleries of Barker Brothers. It constitutes the first exhibit of the Kronberg canvases in California. The artist, noted for his yersatility of style, gained fame for his portraits of Richard Mansfield, Loie Fuller, Lydia Lopakowa and other stage celebrities, and for years has been well represented in public and private collections both in America and Europe. Some of his paintings hang in the Metropolitan Art Museum, the Pennsylvania Academy and the Boston Art Museum.

The exhibition at Barker Brothers will continue until the 28th inst.

MEN, MARKETS and MATERIALS

...sum up in a few words the excel-lent position enjoyed by Consolidated Rock Products Co., which represents a recent consolidation of the busi-nesses of Union Rock, Consumers Rock and Gravel, and Reliance Rock

STRONG POSITION

Headed by one of the strongest executive personnels of any Southern
California corporation, the new company will bring under one control
all factors necessary to achieve the
unusual economies resulting from consolidated management. The concern
is the largest of its kind in the world
and supplies over 75% of the rock,
sand and gravel requirements of
Southern California, which is recognized as one of the leading markets for
these products in the United States.

IMPORTANT PROPERTIES

Properties of the Company and its subsidiaries include 23 producing plants with combined capacity of 4500 tons per year and 21 strategically located distributing bunkers. Rock, sand and gravel deposits owned or leased comprise 2850 acres with an estimated content in excess of 1,000,000,000 tons or sufficient to meet the Company's requirements for over 100 Company's requirements for over 100 years, thus assuring an unusually ample supply of raw materials.

The Board of Directors includes such outstanding men as: Lee A. Phillips, O. Rey Rule, Stuart O'Melveny, B. J. Nolan, Ralph B. Hardacre, Harry J. Bauer, George L. Eastman, I. Bianer, and others. We offer

Seaboard National Securities Corporation

6% Cumulative Preferred Stock Par Value \$25.00 Per Share

Preferred as to assets and dividends, and in the event of voluntary liquidation entitled to receive 105% of par value. Dividends at the rate of 6% per annum are cumulative and payable quarterly on the first day of February, May. August and November of each year. Callable, in whole or in part, on any dividend date upon thirty days' notice, at 105% of par, plus accrued dividends.

Seaboard National Bank of Los Angeles, Registrar

George L. Browning, President of the Corporation, under letter dated February 25, 1929, summarizes as follows the essential features of the issue:

HISTORY. The Scaboard National Securities Corporation has recently been organized under the laws of Delaware to act as a holding corporation for the controlling stock of the Scaboard National Bank, the controlling stock of the Scaboard Company and the controlling stock of other banks to be organized in the metropolitan district of Los Angeles, but outside the legal limits of the city. The Corporation, by exercising rights assigned to it by the stockholders of the Bank, purchased the entire recent additional, issue of 40,000 shares of the Seaboard National Bank stock at \$37.50 per share, which stock is currently quoted at approximately \$47.50 per share on the Los Angeles Stock Exchange.

AUTHORIZED CAPITAL. The Corporation has an authorized capital of 40,000 shares of common stock of \$25.00 par value, 30,000 shares of which have previously been issued. This stock was sold for \$37.50 per share, without selling expense, netting the Corporation \$1,125,000. It is expected that the remaining 10,000 shares will eventually be issued on the same basis. There is additionally authorized 200,000 shares of 6% Cumulative Preferred stock of \$25.00 par value, 20,000 shares of which (the present issue) is to be presently outstanding.

ASSETS. Giving effect to this issue, the Corporation will have assets of book or cost value of \$1,625,000.00, but of a market value based on current Los Angeles Stock Exchange prices of approximately \$2,025,000.00, with no indebtedness. This reflects net assets of current market value of over 400% of the par value of all outstanding preferred.

EARNINGS. It is expected that the Seaboard National Bank stock will pay at least 6% dividends. Such income alone will furnish two times the earnings necessary to meet the total preferred dividend requirements, and there should be substantial additional earnings from other sources.

SPECIAL PROVISIONS. The preferred stock shall be entitled to full voting rights equally share for share with the common stock in event that four quarterly dividends shall be and remain unpaid. No additional preferred stock can be issued at any time unless the net assets, after deduction of all liabilities, are at least 150% of the par value of all preferred outstanding after giving effect to the proposed issue. The Corporation cannot issue any stock having preference over this preferred stock.

MANAGEMENT. All the Officers and Directors of the Seaboard National Securities Corporation are Officers or Directors of the Seaboard National Bank.

LEGALITY. All legal procedure incident to this issue has been conducted and approved by Messrs. O'Melveny. Tuller & Myers, Attorneys, Los Angeles.

PRICE: \$25.00 per shareand accrued dividends to yield 6%

STANDARD OILS

Total surplus of the company at the end of 1928 was \$244.410.016.38. With reference to general condi-tions in the petroleum industry in 1928, President Kingsbury makes the following comment in the reby E. A. Pierce & Co. 513 West Sixth street.) Atlantic Lobes
Borne Sgrymser
Buckeye
Chesebrough Mfg.
Lumberland
Lureka
Lumberland OUTLOOK DISCUSSED

"The year of 1828 was one of disturbing interest to the industry. The condition of large overproduction of crude oil in the producing areas of the world, as stated in the company's report for 1927, continued and only by constructive measures of proration and other restrictions was a more serious overproduction condition prevented. In California, the development of a deeper sand in the Sania Fe Springs field, discoveries in the Kettleman Hills, Elwood Terrace and Lawndale, together with continued large production in Long Beach gave much concern as to the growing overproduction.

The production of crude and casinghead gasoline in California for 1928 averaged 663,309 barrels of crude and casinghead gasoline in California for 1928 averaged 663,309 barrels of crude and casinghead per day, an increase of 5167 barrels daily over 1927, but in December, 1928, the production was 734,239 barrels of crude and casinghead gasoline in California for 1928 averaged 669,309 barrels for 1927.

Although there was only a small change in total stocks of petroleum products in California at the end

The Corporation Has No Funded Debt

HISTORY AND BUSINESS

The Joseph Kreutzer Corporation was organized in 1928 under the laws of Nevada to take over the business of the Joseph Kreutzer, Inc., which has been operating since March 1922. It has a well diversified business covering three phases of automotive service, Eighteenth and Hope Streets, Los Angeles; (Buick Service, Automotive Reconstruction, Auto Laundry) and the manufacture of the Kreutzer tri-motored airplanes.

The Company has a factory at Venice, California, with a capacity of six planes per month. This division of the business is built around a superior design which permits the construction of a small tri-motored plane in addition to larger planes, combining the features of maximum safety, stability, pay-load and performance.

GROWTH IN BUSINESS

The business has grown from a small capital of only \$1100 in 1922 to the present turnover of approximately \$350,000 per year.

The features embodied in the design of this ship open up an almost unlimited

field. Executives, private individuals, express companies and others demand the utmost safety with speed which the singled motored plane cannot fill,

Gross profit \$144,185.21 112,603.93 \$ 31,581.28 311.57 \$ 31,892.85 3,800.00 Federal income tax (estimated)

Net profit \$ 28,092.85 PURPOSE OF THIS ISSUE

The proceeds of this issue will make available funds for expanding the aircraft division of the Company and will be used in part to provide increased facilities and in part for working capital needed to take care of anticipated growth in the volume of business. MANAGEMENT AND DIRECTORS

The business of the Company will continue to be carried on under the direct supervision of the men who have been responsible for its development and successful opera-

NCOME PROPERTIES, WELL LOCATED, PLANNED TO MEET A REAL NEED, AND ERECTED WHEN THE TIME IS RIPE, HAVE ALWAYS PROVED TO BE AMONG THE SOUNDEST OF INVESTMENTS.

Realty Foundation, Inc. is an organization expressly devoted to the development of that type of property. Its management gathers together men who are prominent and successful as individuals in that activity in Los Angelos. that activity in Los Angeles.

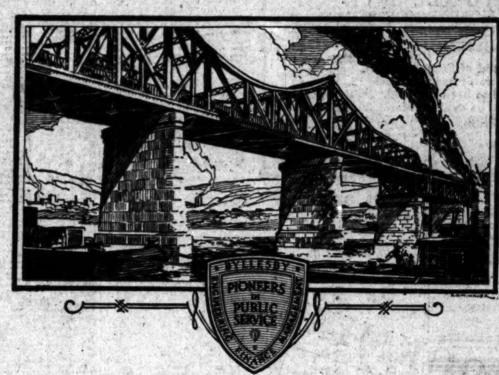

Realty Foundation is amply fi-nanced. Securities of its affili-ated, owning-operating com-panies will never be offered publicly, the shareholders being admitted by invitation only. These securities provide for 6% on the investment "right from the start," and the early return of the principal while retaining ownership of the property itself.

Realty Foundation

SECURITY SALESMEN

A successful Los Angeles finance corporation, now enlarging its business, requires the services of a few of the better class of security salesmen. Leads, wonderful selling literature, office cooperation and the enthusiastic support of a well known board of directors make this one of the best selling deals offered in Los Angeles during the past five years. Call Suite 618 Rowan Bldg.

Edison Securities are Good Investment ...

Say More than 118,000 Investors

118,246 individual stockholders think so. Their co in Edison securities was expressed by adding \$19,300,000 their holdings in 1928, which brought the average of a Edison stockholder up to \$1435 as compared with \$123a 1927. In addition to this amount, over 6½ million dollar Edison stock was purchased by new stockholders in 1921. Edison employees think so, too. 4945 or over 98% dispermanent employees are stockholders in the company. It is worth noting that in number of stockholders is on.

pany ranks among the first five corporations in the United States, and that approximately 90% of the stockholder users of Southern California Edison service.

that loses money?

LAND IS THE BASIS OF ALL WEALTH . . . is an honest axiom . . . but it doesn't apply . . . to vacant lots . . . which produce no income . . . but tear down wealth . . . by taxes and interest losses.

WHEN THAT LAND IS USED . . . to produce income . . . by proper financing . . . of adequate tion . . . suitable for the neighborhood . . . then the vacant lot losses . . . in Southern California . . . will not equal . . . our entire industrial payroll . . . in interest and taxes.

Through 36 years . . . without loss . . . the old-fashioned Mutual Building and Loan Association . . . of Pomona . . . has built State records . . , for building and loan association thrift . . . in its business . . . of financing advisable construction.

With no side profits . . . no side-line corporations . . . no dictation of materialmen . . . no bulldozing of the borrower . . . no interest charges until funds are used . . . no secret commission channels . . . detrimental to architect or contractor . . . to realter or insurance broker.

SO WE GET GOOD LOANS . . . and the respect . . . of our borrowing clientage . . . who appreciate . . . the old-fashioned principles ... of the Mutual of Pomona ... and we'll serve you . . . with quickness and courtesy.

Founder of St. Luke's International Hospital at Tokio Guest at Biltmore Dinner Gathering

Eventual elimination from the face of the earth and the conquest of disease as the great problem facing humanity today, was described by Dr. Rudolf Bolling Teusler, founder, and director of St. Luke's International Hospital at Tokio, before a group of Southern California leaders in society and philanthropy who gathered at a dimer last night in his honor at the Biltmore.

Other guests of honor are Hon. Charles MacVeagh of Santa Barbara, who just has resigned his post as United States Ambassador to Japan; Dr. Hemry S. Pritchett of Santa Barbara, president of the Carnegie Foundation for the Advancement of Teaching, and Dr. Mabel Elliott, former medical director of Near East relief, and now head of the children's department of St. Luke's Hospital in Tokio.

stoal was brought to 3.62 inches, as compared with 4.54 inches last year.

Glennville received the heaviest precipitation during the week-end atorm, 2.12 inches failing in that district, bringing the season total to 13.79 inches, slightly ahead of last year's total. Nine inches of snow fell, the white blanket extending far down into the foothills.

RECORD FOR DECADE

The precipitation for the two-day atorm in Fesson brought the season air fall to 38 per cent of normal, it was reported, while the precipitation on the Tule and Kimsz River brought the year's total of 73 and 72 per cent of normal.

Reports from Visalis give the total rain for the season as 2.02 inches and term the snow in the mountains as the heaviest in a decade. Snow fell Sunday night as low as the Ash Mountain headquarters of the park and yesterday on the highway between Tulars and Visalis.

Rainfall figures from various Southern California points, and particularly the mountain districts as reported yesterday gave: Ash Mountain headquarters of the park and yesterday as a last year's total of 13.92 and 14.97 as the total for last year. Corooran reported 40 of an inch for the storm, a season total of 13.92 and 14.97 as the total of 13.96 inches for the two-day fall, a season total of 13.96 inches for the two-day fall, a season total of 15.95 inches, and last year's total as 446 inches storm total of 13.96 inches for the storm, a season total of 5.23 inches, and last year's total as 446 inches storm total of 13.96 inches for the storm, a season total of 6.39 inches, as a gainst total of 18.62 inches and a last year's total of 14.68 last year.

Had Seven Years' Experience

at Geneva

Will be Heard by Students and Many Clubs

An opportunity to hear first-hand information of the League of Nations will be afforded many Southern California students and members of club groups during the next two and a half weeks when Sir Herbert Brown Ames, for seven years financial director of the League of Nations, delivers a series of lectures on his own experiences in League affairs.

Sir Herbert arrived in Los Angeles on Saturday and is staying at the Hotel Figueroa. His last trip to this city was made some thirty years ago, and he hopes to find a few breathing spaces in his very busy program to see something of the country. Accompanying him are his sister, Miss Mary Ames, and a coustn. Mrs. Charles Moline.

Since his service with the League of Nations, Sir Herbert has been lecturing and conducting classes in universities and has given full courses in twelve Canadian universities. He is here under the auspices of the Los Angeles University of International Relations.

The world puzzle
Looks as if the natural development of the European tangle would result in the organization of an international bank or trust company. This would serve as the executor of the second Daws committee and handle the adjustments and credits that are essential in striking a world's balance sheet. Most of the men now concerned in the perioticions are either political or military-minded and their work is likely to inspife suspicion or fear. A group of peace addicts from international banking circles should be able to compute better the exchanges and credits that are assential to a final settlement. We want a clearinghouse dedicated to Mercury rather than Mars. Anyhow, the reparations will be more a matter of book-keeping and credits than a movement of gold.

The expedition commanded by Nobile set out with the best wishes of the the course over Europe with pride. Nobile tendency toward

The expedition commanded by Nobile lest out with the best wishes of the their confidence. Two years before that the popular will may be defeated by those inequitable inequalities. It is already being defeated because of the greater weight given in Congress to the over-represented States. Pole. On that expedition Amundsen severely criticised Nobile, saying that his temperament was a liability, that he will include the value of the properson who go out with drinking drivers or have knowledge and give consent to the use of liquor while riding may not recover damages as the result for any accident for which the booze of any accident for which the booze of the greater weight given in Congress to

Y FILLING THE RESERVOIRS

March this year was ushered in
with some misgiving as to how the season was going to rate in the matter of
rainfall. The first week was dry. Another six weeks would bring our wet
period practically to a finish.

And then with a sudden swing of

meteorological conditions governing the Pacific Coast the second week of March brought us the exceptional rainfall of two and a half inches within a twenty-four-hour period. This was the record rain for 1928-1929.

Again providence has been kind to the people who have turned the once semi-arid sheep and cattle ranches of the old Associated Press Casis Miles and Casis Miles Avenue.

Beary States Miles.

The sum shines through an atmosphere washed clean by the overflow of the clouds. And so steady and continuous was the instrument address will be instrument address will be instrument address.

[Loce Ahng hayl ass]

Associated Press

assimilated by the grateful soil.

When it starts raining in the Golden State the heart of everyone who knows

State the heart of everyone who knows his California rejoices, no matter to what personal inconvenience he may be

According to the weather bulletin at the beginning of March the seasonal rainfall was only 50 to 60 per cent of normal throughout the State. A belowpar rainfall for one season does not, of course, any longer spell disaster. Yet the rood rain at the right time makes a lot of difference. And we like to have things normal in our State.

A more serious addition to the weather bulletin informed us that at Summit there were only thirty-six inches of snow on the ground against a normal at that time of the year of 115 inches. Because the greater the developments taking place in California south of the Tehachapl, the less we depend on rain and the more we depend on snow.

Therefore, the news that the March storm also brought an unusually heavy snowfall in the High Sierras is an even better omen for a prosperous agricultural and horticultural showing during the coming summer. Huntington Lake station, according to the Southern Callfornia Edison Company, reports forty-six inches of snow now on the ground in the Huntington Lake district. Florence Lake has twenty-four inches, mostly contributed by the present storm. The snowfall in the mountains still leaves the accumulation below the normal, but the hopes of reaching it be-

mostly contributed by the present storm. The snowfall in the mountains still leaves the accumulation below the normal, but the hopes of reaching it before the end of the season have been greatly enhanced.

The extra moisture over foothills and mesas and valleys has cheered all Southern California. The reported heavy snows in the mountains is even more important. We want the rain. We need the snow. To know that we are wiping out the deficiency in rainfall is a pleasure. To know that we are approaching the normal mountain snow is an exaltation.

If we see a million dollars in each of our seasonal rain storms, the value of the snow on our mountains would have to be reckoned in billions. Snow is a natural storage reservoir donated by na-

to be reckoned in billions. Snow is a natural storage reservoir donated by nature on the mountain tops for the eternal blessing of the good people developing the natural resources of this miraculous region. To duplicate this water system at the mouths of creeks and streams carrying off the melted snows requires immense labor and exact engineering conducted at a tremendous expense.

And then if our snow should ever fall us, all this great work of man would be wasted. Rains helps us to a large extent, but snow is an essential.

In the past whenever a season threat-ened to be unusually dry the people would unite to pray for rain. The prayer of the modern Californian should be, "Give us this year our yearly

it is quite possible our record March storm has turned that prayer into a psalm of thanksgiv-

ist the bootlegger be posted over and Honest and intelligent pubmay accomplish much.

No great surprise greeted the cable report that the Italian commission delegated to investigate the causes of the gated to investigate the causes of the call for an extraordinary Congressional call for an extraordinary Congressional

Four generals, one admiral and one Senator sifted the evidence, deliberated long upon it in an apparent effort to save Italian honor and prestige and came to the unwilling conclusion that came to the unwilling conclusion that Nobile was not only recreant as an of-Nobile was not only recreant as an officer but that he was to blame for the
crash which wrecked the Italia. They
censure him for permitting his companions to remain upon the lee fice
while he was borne safely away. By his
acts as commander Nobile is held to
have destroyed the effect of years of effort on the part of Premier Mussolini to
create for Fascist Italy a profound impression of its scientific prowess upon
the world at large.

As for Captains Filippo Zappi and Alberto Mariano, who set out to seek aid
for the party and were rescued after
leaving Dr. Finn Malmgren to an uncertain fate upon the ice, they are held by
the commission as having conducted
themselves in a manner "not open to
criticism," and, indeed, worthy of
praise."

The expedition commanded by No-

WE ANGELENOS must admit that W we are not quite perfect.

The alterations in the big depart-

gest downtown stores employs partment alone. And that department store, of course, handles many other lines, equally important, which are not alterable.

tant, which are not alterable.

That gives some idea of the greatness of Los Angeles stores, for what reader can say with certainty which of our big department stores is meant? There are half a dozen of which it might be true.

No wonder Los Angeles stores have customers throughout the Southwest, and in Mexico and Hawaii.

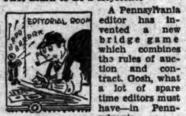

American Aristocracy

Lee: The Bureau of Census Statis-tics finds that in the United States there are only 8866 adults of "marked intellectual abilities." Well, we'll admit we never expect to get into the 400, but there are lots of guys in that gang who'll never get in with us 8866ers, either.—Adam Sinnick.

Long Division .

After we deduct all the young in-tellectuals and would-like-to-appear-young intellectuals in Los Angeles there surely aren't many memberships left for the rest of the country; there being fully 150,000 of the former and 300,000 of the latter.

First Learn to Be a Keystoner

which combines tion and con-tract. Gosh, what a lot of spare time editors must have-in Pennsylvania.

Leeside: What you write of Palm Springs is true. And why? Partly because Palm Springs is in an Indian reservation, and the government pro-tects it. I was in Thousand Palms canyon the other day and saw a tragedy, A motion-picture outfit had been shooting an African desert film there and had been too lazy to trim the skirts of the palms, to make them look like the foreign kind, so they'd burned 'em off! Picture it, think of it dissolute man! Shouldn't hat it, dissolute man! Shouldn't that movie troupe be treated in just the same way?—A. B. G.

General Denial

Sure should, if they really did it. Men too. But maybe that's just an unproved report. A few of the palms Juana, too .- J. S.

"safety first" for himself, and his "deviltake-the-hindmost" attitude at the rescue, they had these things yet to learn, and the revelation of them by the rescuing party tore their hero off his walls of the institution. Can't get away

previous to the rescue, it must be per-fectly obvious that a man who. in such a position, goes to pieces is not the man for such highly responsible leadership.

mentioned only farm relief and session, mentioned only farm relief and limited tariff revision as the objects of the session, there will be both time and opportunity for the passage of a reapportionment bill. A measure which concededly meets constitutional requirements and is generally satisfactory to the receiver the second of the country has been selected. to the people of the country has already been drawn in the Fenn Bill, which passed the House at the last session, but gress is genuinely desirous of righting a great and increasing wrong, it need spend no time in devising a method.

The new Congress will have to pass an allied measure in any event, one pro-viding for taking the 1930 census, and the two measures could be combined and put through with a minimum of expenditure of Congressional time. No measure is of more real and more press-

The present Congress is an unconsti-tutional body, the recent Electoral Col-lege was an unconstitutional body; and the Electoral College of 1932 will be worse unless the Fenn bill or an equivalent is adopted. In 1932, according to the Agures of Senator Vandenberg of Michigan, Massachusetts will have on electoral vote for each 240,000 of population, Texas will have one for each 281,000, Michigan one for each 317,000

in Palm Springs are burned, too. The Indians used to burn them as a re-ligious rite, to drive away evil spirits, somewhat as the Chinese burn fire-crackers. And the undivided skirts of a palm ninety feet tall, certainly would crackle as loudly as Chinese firecrackers. Or maybe lightning set some of those palms after while the movie folks were in there. If it can be proved that any motion-picture outfit deliberately set fire to a grove of palms which must have averaged around 1000 years old it should be

made to suffer.

But motion-picture folks get blamed for lots and lots of things they never did. So often that they're used

that they're used to it.

What a waste of breath to criticise 'em for things they never did when we can hardly hope to ever get through criticising 'em for what they have done? what they have done? Frinstance

"The man who developed television plans to give motion pictures depth." Then he'll have to begin with the

pedestal.

Nobile is now branded as thoroughly unqualified for his job of commander of a polar expedition. It takes brave men for such tasks, and whatever may be said of the physical and mental condition of the Italia's commander just previous to the rescue, it must be far.

FIXING THE RESPONSIBILITY By James J Montague It is insisted that gang-plays are responsible for gang activity.

When Brutus and Cassius were youngs-

ters in Rome
The lives that they led were sublime,
They spent all their evenings and Sundays at home
And cared not a jot about crime.
But when they arrived at the age known as "teens"
They witnessed a cangaplay one night

They witnessed a gang-play one night And gazed at its awful and soul-stirring scenes
With quivering thrills of delight.
So later they gathered a gang of their

Before Mr. Macbeth had attended play, Though he thirsted for regal renown, He could not figure out any nice pleas-To make Duncan hand over the

Which earned them some Thus for murder, and robbery, looting

and crime
The bad wicked stage is to blame every

"Some One Had Blundered"

"Some One Had Blandered"
LOS ANGELES, March 9.—[To the Editor of The Times:] The article in The Times today to the effect that defective wiring was found to have caused the automobile show fire, and subsequent comment reveals, in reality, an alarming condition of affairs that should be remedied right now.

Fire Chief Scott is quoted now as saying neither he nor his department approved the permit to hold the show in what turned out to be a veritable fire trap. He said the City Council issued the permit. On whose assurance that the fire laws were to be obeyed and the public and exhibitors protected is not clear. Also, if the wiring was defective, why not let's find out who inspected it and approved it?

As I see it, we should be just as insistent to have the truth and responsibility brought out now as if many lives had been lost. for it was through no vigilance of the City Council or the fire department or the building department that lives were not lost. Let's set up a system right now to see that responsibility for safety of public gathering places rests with some one authority who will be on the job all the time because he will know that in the event of a catastrophe he cannot begin passing the buck around.

A. J. KANE.

Confiscation

LOS ANGELES, March 9.—ITO the Editor of The Times.] Accentuating the protest of Mr. Harriman against the Cryer and Aministration: when was the Mayor ever present if an important matter was before the Council? "Vacation" has been working on the painting in London, Florence, Amsterdam and Bermuda. It is the picture of a famous Italian secret society said to be the oldest in the world and typitying the benevolent at livities done without hope of reward. It may become one of the famous paintings of most better the vould be \$6000. Her bill is now stie, 600.

Garage Insurance

GLENDALE, March 8.—ITO the Editor of The Times:] Is an auto in wooden garage an extra firs hazard? I do not thinks on the Editor of the Times:] Is an auto in wooden garage an extra firs hazard? I do not thinks on There are millions of autos in wooden garages. Did you ever hear of one setting fire to a building? The most modern apartment in Glendale has the entire basement for parking autos. Most cities have ordinances that require galvanized iron on cellings where the basement is used for parking autos. If parking autos in basements is not an extra hazard why should builders be put to this extra expense?

For information of hazard or autos I would like to ask how many of those autos in has been was none that settles the quesent for was none that settles the quesent forward movements of the present the provision of the gasoline tanks exploded by that fire? If there was none that settles the quesent forward movements of the present for parking autos in the settles of the present of the control of the gasoline tanks exploded by that fire? If there was none that settles the quesent forward movements of the present its present the provision of the pre auto in wooden garage an extra
firs hazard? I do not think so.

Criminal Prosecutions

Criminal Prosecutions LOS ANGELES, March 8.—[To the Editor of The Times:] There are some things in this city's government that I and no doubt many other taxpaying citizens don't understand, and I trust I may be pardoned for asking for information on the following

To make Duncan hand over the rown.

But a gang-play he saw in the palace one night
Set his feet on the steps of the throne. And in order to do the job swiftly and right
He chartered a gang of his own.
The boys did their work in professional style
And Mr. Macbeth was the King—for a while.

No doubt James and James were two sweet, kindly boys
Till they went to the gang-plays too much,
And began in their hours of ease to much,
And began in their hours of ease to make toys
Of pistols and shot guns and such.
That led to the playing of innocent pranks
Of a more or less thespian flavor—
Like shooting up stages and holding up banks—

W. B. J.

A bas-relief panel of lions, un-earthed at Beisan, is pronounced by archeologists the finest sculpture

UNIVERSE HUB BY LANNIE HAYNES MARTIN

Although Boston may still make her original claim to bemake her original claim to being the center of everything, if
an impartial decision, based on
the variety of activities, commodities, inventions and artistic, musical and literary movements could be made, Los Angeles might usurp. that timehonored title, becoming the hub
around which all things center,
and to which all things gravitate.

associations it represented.

A remarkable unfinished picture was brought here last week by a famous English artist, who has been working on it for the past twenty years. He believes that here he can find more cosmovolitan types for models than

eral welfare of man.
So here we are originating the forward movements of the present, collecting the art and beauty of the past, fusing the culture and religion of the middle ages with the aspirations and ideals for the future and making of Los Angeles a real world center.

WHERE CAN I LEARN

Advanced Dramatics? BY LOUISE L. TEMPLE

[Prepared in co-operation with the Los Angeles evening high schools. Questions

may be pardoned for asking for information on the following matter.

Why does the county and city of Los Angeles have to pay the costs of the recent trial of Rev. R. P. Shuler? I supposed the scrap was between the Knights. Of Columbus and the Rev. R. P. Shuler and cannot see why the city is mixed up in it.

Must the city of Los Angeles furnish the money to fight or defend any suit for criminal libel or defamation of character brought by any person who claims injury?

Are we, the taxpayers, to understand that if the threatened suit of the Mayor against the Rev. R. P. Shuler materializes the city has to furnish the money to carry it on?

If the paying of the costs of the recent trial is law, and establishes a precedent in such cases, heaven help us taxpayers.

J. T. FERRES.

Philharmonic Women's Committee Hears Talk on Salesmanship by Authority

Members of the women's committee of the Los Angeles Philharmonic Orchestra, now engaged in a drive to assure capacity audiences for the 1929 concert season, yesterday were given pointers in their work in a talk by Paul Ivey, salesmanship authority, at a luncheon meeting in the California Club. Approximately 150 women attended.

Ivey told the women, many of Philharmonic Orchestra for five whom are leaders in social and civic activities, to "know their merchandise," which in this case is music; and, if possible, to have a knowledge of the person they were contacting, and to approach the prospect with enthusiasm. He believes that if they follow these cardinal rules of salesmanship the drive will be successful.

This is the third annual drive of the woman's organisation and this year it is laboring with added inspiration because of the recent announcement of William A Clark, Jr., that he will guarantee the

LEE BARNES PLANS TO RETIRE

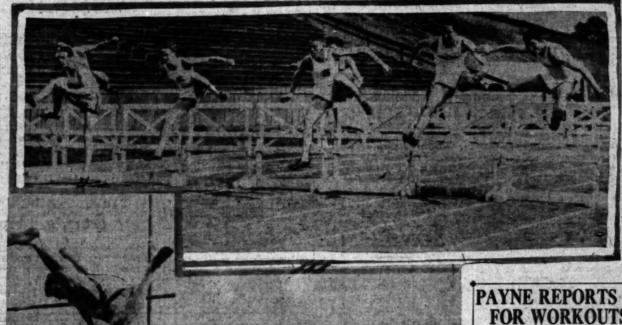

Lee Barnes, L.A.A.C. pole vaulter, present national champion and Olympic champion in 1924, has decided to retire from competition this year. Barnes announced yesterday that he will not be able to compete with the Mercuries this year and he expects to give up the game for good. He is a former U.S.C. star and captained the Trojans last year.

Santa Clara Outfit Wins Over Locals as Misplays Prove Costly

The Bronco baseball team from Santa Clara College rode the Bruin baseballers to a 4-to-2 decision yesterday afternoon in a contest that was air-tight with excellent pitching on both teams until the seventh inning when the University of California at Los Angeles nine booted two balls to let the visitors score three runs. The Broncos added another run in the eighth inning to sew up the game. Larry Morey swatted out a homer into right field over Paul Smith's head. The game opened the Pacific Coast conference baseball season for the local diamond aggregation.

good catchers are so much more scarce than good outfielders; is doing some experimenting. Bates can throw to second with any of 'em, but he's far from a capable catcher yet. Tony Rego is the Beavers' first-string backston now, but they say that Tony is always getting hurt, so Rodgers figures he has to have another experienced catcher before he can feel astisfied with his club bechind the plate. Not even Turner, draw at the gate.

the securing of a star athlete to draw at the gate.

In answer to the criticism that the plan would cut down America's Olympic Games material, Paddock stated that 85 per cent of 'those making the Olympic team are college men and that few, if any, of these would care to turn professional until they had at least taken part in one Olympic program. Of the remaining 15 per cent, Paddock thought that only a few would care to compete in unsanctioned meeta. Charley is going east in a few days and was authorised by the SRAAU, to lay the plan before national AAU, officials who may be interested in discussing the resolution.

In USE TRUJAN BACKS

Fight second-string backs. Eight second-string backs.

Even Pop Warner, tight-mouthed and wary when speaking for publication, would break down and make another rosy prophecy if confronted with a backfield array like that. And Howard Jones must pinch himself to keep from smiling. The Southern California football coach has never be-

A SELL-OUT looms for the Olympic tonight when Earl Mastro and Young Nationalists meet in the ten-round main event.

Mastro seems headed for featherweight championship honors, and Nationalists has been a local sensation since he changed his bouncing

style and learned to hit.

Mastro best Kid Francis in his last local fight, and defeated the European bantamweight champion decisively.

Nationalista was laid low by the flu around the holidays, but is okeh now and has knocked over several boys in the smaller towns since

A CUP OR -

WELL, my old friend of the Midnight Sun, Dave Westerling, didn't win his cup in the San Gabriel tourney because he missed the starting time by a few minutes—but it was not his loss. It was that of his opponent. A game with Dave is worth all the cups in the world. Anyway I can't imagine what Dave would do with a cup except to fill it with Swedish punch when he goes abread, and kind friends in the Land of the Midnight Sun undoubtedly will supply him with the proper receptacles over there.

in Boston Go

fistic destiny of Max Schmeling.

German heavyweight, was decided upon today during a telephonic conference between William F. Carey of Madison Square Carden, New York, and Edde Mack, boxing promoter of the Boston Garden.

These officials after agreeing to work in connection with an attempt to straighten out the muddled heavyweight situation, decided to pit Schmeling against Jimmy Maloney of Boston here at Braves Field early in June. Schmeling. Carey said, was expected to return from Germany long before then.

Carey told Mack he expected to clinch a match for the Yankee Stadium in New York between Jack. Sharkey, the Boston heavyweight who defeated young Stribling in the recent Mlami clash, and Paulino Uzcudun, the Spanish woodchopper. The two promoters, according to Mack's version, agreed that these four heavyweights were the outstanding contenders for Gene Tunney's veated title and that the victors of the Maloney-Schmeling and Sharkey-Paulino battles would be worthy to fight for the championship in a Yankee Stadium bout in September. Carey has been assured, Mack said, that the four contenders would agree to their plans. OARLAND VANNIGANS

HOLLYWOOD STARS SHOW OLD FORM IN 5-1 WIN

BAN DIEGO, March 11.—Displayright in the running in the Pacific

right in the running in the Pacific Coast League race last season, the Hollywood Stars turned back an all-star team of players selected from the San Diego Baseball Managers' Association this afternoon at Navy Fleid, 5 to 1.

The Stars showed their rating by manufacturing the five runs off seven hits and six bases on balls through superior baserunning. The All-Star team, led by Earl Stratton, president of the association, put up a fast game, but could not get men around the bases. Chet Harritt collected the only score, that in the third inning. Two men got to third base and on two other occasions a man got as far as second. The rest died on the initial sack.

Nielson, little left-hander, who is

"SHELLY" STARTS

Prank Shellenback, one of the leading twislers on the Star corps, started off the game. Eleven men faced him in three innings, one run crossing the plate. A. F. Johns, left-hander obtained from Fort Worth, then took up the tossing. Johns gave three hits, no runs and fanned six, eleven men facing him. Dick McCabe finished, giving but two hits.

Bonowits the center, turned in goor running catches. The All-Stars were not to be outdone in the field, turning in a double killing from Ramage to Harvitt to Kent that even caught Manager Oscar Vitt's eye LEE FEATURES

LEE FEATURES

Lee featured in the ran-getting for the afternoon, collecting two hits and two runs in four times at bat, one safety a double. Lee stole second in the seventh imming and when Kaufman's throw went to center field came all the way home to score.

Vit used both Rollings and Ostenberg on third base. This pair are fighting for the job. Each collected a hit in one official time at bat for a 1000 percentage, Rollings made one assist and a putout with Ostenberg handling his one chance well. Score:

Angeles, California, at 10:30 o'clock
a.m., on the 14th day of March, Proposed for Task ediate employment of two special prosecutors and the appro-priation of \$25,000 to defray cost 72 years of age,

Angeles-First National Trust & Savings Bank, at the Southwest corner of Spring and Seventh Streets. Los Angeles. California, at 10:30 o'clock a.m., on the 14th day of March, 1929, for the purpose of considering and princed to the seventh of the seventh of the purpose of considering and princed to the seventh of the seve priation of \$25,000 to defray cost of prosecution and preparation of the cases were requested of the City Counsel yesterday by City Prosecutor Nix, who announced his intention of bringing to speedy trial defendants named in 143 complaints charging usury growing out of the Inlies Paradeurs Comparation to outlining his plans, Nix asks that he be allowed to arrange for the em-ployment of Attorneys William J. Clark and William C. Mathes as special counsel to handle the prose-

The defendants thus far served with complaints issued from this office are represented by able counsel and I am informed that it is to the intention of the defendants to contest the proceedings through every step. I am convinced that the public interest and fusite require the proceedings through every step. I am convinced that the public interest and fusite require the proceedings through every step. I am convinced that all of the defendants against whom complaints have been filed be brought to trial as specifily as practical.

"The documentary evidence alone is very voluminous. In addition there are many volumes of testimony covering the other trials which will require careful examination. Proper preparation will require a vast amount of detailed investigation and research. I am convinced that the same will demand a fremendous amount of energy and time, if the procecution is to be handled properly and the people properly represented.

The present staff of this office is already burdened with the routine business and with much unfinished business still pending. The public interest unquestionably requires immediate employment of special procecutors to complete the investigation, to assemble the evidence and proceed immediately with the procecution of these cases where the evidence would be interest unquestionably requires immediate employment of special procecutors to complete the investigation, to assemble the evidence and proceed immediately with the procecution of these cases where the evidence would be interest unquestionably requires immediately with the procecution of these cases where the evidence would be interest unquestionably requires immediately with the procecution of these cases where the evidence warrants.

"In order that the above may be accomplished, I respectfully request your honorable body to make an appropriation of \$25,000 to deferay when she colours the interest understants to the interest understants to the defendant the interest them from the first three the procecution of the expression

Body of Flint to Reach Here on Thursday

less formless webs spun in buildings by certain species of spiders and the larvae of some insects. Most of the tangled webs which amoy thrifty housewives are produced by the little house spider, theridon tepidarlorum. Cobwebs on the cellings and in the corners of houses are usually not noticed until they become covered with dust, a circumstance which probably gave rise to the popular belief that cobwebs consist merely of dust. The impression was confirmed by the fact that the house spider is seldom observed at work.—[The Pathings.]

The Nix letter, forwar ed to the Council yesterday, will probably be referred to the Finance Committee and will not reach the floor of the Council for discussion until the committee submits a report.

LETTER TO COUNCIL

The letter follows:

"Since assuming the office of City Prosecutor January 14, last, I have found, in addition to numerous other unfinished matters which will require the full time of my entire staff for some considerable period, 143 compaints filed by this office in the fall of 1827 charging usury growing out of the Julian Petroleum Corporation investigations.

"None of these cases has been brought to trial. Some time ago I have found the first of immigrate to America in the movement.

The Russan government heard of the fall of 1827 charging usury growing out of the Julian Petroleum Corporation investigations.

"None of these cases has been brought to trial. Some time ago I have found before the fall of 1827 charging usury growing out of the Julian Petroleum Corporation investigations.

"None of these cases has been brought to trial. Some time ago I will be plan and confiscated all the plan and confiscated all the property that could be found before plan and confiscated all the property that could be found before an advance of the found the plan and confiscated all the plan and confiscated all the property that could be found before the plan and confiscated all the property that could be found before the plan and confiscated all the property that could be found before the plan and confiscated all the property that could be found before the plan and confiscated all the property that could be found before the plan and confiscated all the property that could be found before the plan and confiscated all the plan and confiscated all the plan and confiscated all the property that could be found before the plan and confiscated all wealthy Jews in New York key them from starving.

Clark and William C. Mathes as special counsel to handle the prosecution.

PLAINTS LONG FILED

"The public interest unquestionably requires immediate employment of special prosecutors to complete the investigation, to assemble the evidence and proceed immeusably with the prosecutors to complete the investigation, to assemble the evidence and proceed immeusably with the prosecutor of these cases where the evidence warrants, the letter said.

The usury complaints have been on file in the City Prosecutor's office since the fall of 1927, Nix says, but none of the cases has been brought to trial, although several are set for hearing at an sarly date.

The Nix letter, forwar, et to the Council yesterday, will probably be referred to the Finance Committee and will not reach the floor of the Council for discussion until the committee submits a report.
